

# EQUIP YOUR LAB WITH AN EXPANDED MOLECULAR TEST MENU ON ONE PLATFORM

Provide your lab with a new standard for patient care with faster, more accurate results with *illumigene*<sup>®</sup> – molecular simplified.

- ✓ **Fast & Accurate Results**
- ✓ **Streamlined Process**
- ✓ **Efficient & Compact Design**
- ✓ **Affordable Technology**

## Expanded *illumigene*<sup>®</sup> Molecular Menu

### RESPIRATORY

- » *Group A Streptococcus*
- » *Mycoplasma*
- » *Pertussis*

### HOSPITAL ACQUIRED INFECTION

- » *C. difficile*

### SEXUAL HEALTH

- » *Chlamydia (CT)*
- » *Gonorrhea (NG)*
- » *Group B Streptococcus*
- » *HSV 1&2*

### TROPICAL DISEASES

- » *Malaria*

## FAST & ACCURATE

- Collect, test and deliver accurate results in less than 1 hour
- Conclusive, objective results reduce uncertainty
- Eliminate need for send-out testing
- Less waiting for physicians

## STREAMLINED PROCESSES

- Simplified protocols for easy sample preparation and testing
- Random batch access allows up to 10 patient samples at a time in 2 independent 5-sample chambers

## EFFICIENT & COMPACT DESIGN

- Small footprint requires minimum bench space
- Compact size - 21 cm x 29 cm x 10 cm (L x W x H)
- Kit storage at room temperature

## AFFORDABLE TECHNOLOGY

- No capital investment necessary
- No annual maintenance charges
- Training, implementation and upgrade services provided at no charge
